December 15, 2011

Mayor David Brummel  
City of Warrenville  
28W701 Stafford Place  
Warrenville, IL 60555

Dear Mayor Brummel:

The Forest Preserve Board was recently informed that a new bridge reconstruction project is planned for 2013 in the City of Warrenville. The Williams Road Bridge Project over the West Branch of the DuPage River will also include the installation of water and sanitary sewer lines to Morris Court.

It has been a long-term goal for the Forest Preserve to be able to connect city water with our Maintenance complex on Mack Road. The ability to connect to city water and eliminate the maintenance of our existing wells and underground storage tanks, and reduce our electricity costs associated with water coolers and pump generators would be very beneficial to the District. In addition, a municipal water pressurized sprinkler system will allow us to have additional fire protection for all our buildings at the maintenance complex. We also realize that the City of Warrenville has a long-term goal to connect a trail from the Prairie path to the Warrenville Grove parking lot.

I would welcome continued discussions between the City of Warrenville and the Forest Preserve District of DuPage County regarding an IGA, which could benefit both our agencies. Please have your staff contact Andrea Hoyt, Director of Planning, at 630-933-7243 so that we may coordinate a meeting to determine if a reasonable proposal could be achieved.

Sincerely,

D. "Dewey" Pierotti, Jr.  
President
