Mr. Ron Mentzer, Director  
Community Development Department  
City of Warrenville  
3S258 Manning Avenue  
Warrenville, Illinois 60555

Re: September 2008 Flood Investigation  
Additional Scope Items

Dear Mr. Mentzer:

Following is a proposed scope and man-hour estimate for Strand Associates, Inc. to provide engineering services to the City of Warrenville (Warrenville) for additional scope items related to the study of the flood event that took place along the West Branch DuPage River (WBDPR) September 13 through September 16, 2008.

**Scope of Services**

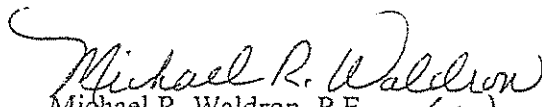

Our proposed scope of services entails the following:

1. Review and provide input on the County's Draft Scope of Work for the West Branch DuPage River Watershed Plan Update. Assumes reviewing and commenting on two separate drafts. We can provide comments on the current draft scope of work received by the City on March 20 within 2 days of your notice to proceed. We can review the second draft within 3 days of receiving the second draft. Total effort: 8 hours.
2. Investigate and provide a summary memo regarding the status of the 48-inch pipe grouted as part of the Fawell Dam improvements. Total effort: 6 hours.
3. Review the 550+ pages of information obtained by Mike Hoffman from the Army Corps of Engineers. This effort includes providing a summary memo of the results of our review and providing updates to any necessary scope items discussed in previously written memorandums. Total effort: 18 hours.

If you have any questions concerning the proposed scope of services please let us know.

Sincerely,

STRAND ASSOCIATES, INC.

  
Michael R. Waldron, P.E. (ccw)

  
Nicholas J. Orf, P.E., CFM
