This funding represents approximately 38% of the total estimated construction cost. The City's share will be paid with Capital Maintenance and Replacement Plan (CMRP) funds. VI. PRESENTATION AND DISCUSSION ITEMS

Mayor Pro Tem Barry acted as Chairman for this portion of the meeting.

- A. Consideration of Professional Services Agreement with Engineering Enterprises, Inc. for a five year review and revisions to the City's Risk and Resilience Assessment and Emergency Response Plan

Discussion: Utility Maintenance Superintendent (UMS) Jardine stated that Illinois communities are required by the EPA to review and update Risk and Resilience Assessment and Emergency Response Plans every five years to maintain regulatory compliance and ensure the continued safety and reliability of the City's water and wastewater systems. He added that the documents were originally prepared by Engineering Enterprises, Inc. (EEI) in 2021.

Staff is recommending consideration of an agreement with EEI for the completion of the five year review and revision of the plan as necessary to reflect current system conditions, regulatory requirements, and best practices. Additional enhancements to the agreement may include coordination of a cybersecurity assessment with the City's SCADA integrator and facilitation of a virtual tabletop exercise for Utility Division staff using the EPA's Tabletop Exercise Tool.

UMS Jardine clarified that the assessment will not include any aspect of the Naperville wastewater treatment facility. PWD Kuchler noted that his son works for EEI as a project engineer and his work is unrelated to the services that EEI is proposed to provide the City on this project.

Alderman Lockett made a motion, seconded by Alderman Wilkie, to direct staff to present a resolution approving a Professional Services Agreement with Engineering Enterprises, Inc. for a five-year review and revisions to the City's Risk and Resilience Assessment and Emergency Response Plan at an upcoming City Council meeting.

MOTION ADOPTED VIA VOICE VOTE
