**LEGEND FOR STAFF RANKING/PRIORITIZATION OF WORK PLAN ELEMENTS**

**Tier One** – Highest priority initiatives staff feels must be advanced. Tier one elements of Department’s annual Work Program. In many cases, these are ongoing or time-sensitive initiatives that cannot be delayed without significant detrimental, costly, and/or long-term negative impacts. Expect to accomplish with existing and budgeted resources.

**Tier Two** – Important priority initiatives staff feels should be advanced. Tier two elements of the Department Work Program staff expects to accomplish/advance with existing and budgeted resources. Delaying progress on these initiatives and projects will result in undesirable impacts.

**Tier Three** –Desirable and valuable initiatives, but not items the Department expects to advance to any significant degree with existing or budgeted resources in upcoming FY. Third tier elements of the Department’s annual Work Program. It is unlikely the City will experience any measurable or lasting negative impacts if these items are not advanced in upcoming FY. However, if work is not initiated or suspended on High or Important-priority initiatives, it may be possible to reallocate staff resources and advance one or more of these initiatives and projects.
