

Proclamation

NATIONAL ENGINEERS WEEK

February 20 – 26, 2022

WHEREAS, Engineers have built the foundation for progress and development and contributed greatly to society by turning ideas into reality. Engineers use their scientific and technical knowledge and skills in creative, innovative ways to meet societal needs; and,

WHEREAS, Engineers face the major technological challenges of our time – from rebuilding towns devastated by natural disasters, cleaning up the environment, and assuring safe, clean, and efficient sources of energy, to designing information systems that will speed our country into the future; and,

WHEREAS, Engineers are changing the world all the time. They dream up creative, practical solutions and work with teams of smart, inspiring people to invent, design and create things that matter, and,

WHEREAS, National Engineers Week was established in 1951 to help increase public understanding of the engineering profession, and as we imagine tomorrow, engineers will be at the heart of the solutions to combat climate change, secure cyberspace, develop vaccines, and make the world a better place for us all,

NOW, THEREFORE, be it resolved that I, David L. Brummel, Mayor of the City of Warrentville, proclaim February 20 through February 26, 2022 as **Engineers Week**, and applaud the engineers working for and with the City of Warrentville for the significant contributions they make to enhance the quality of life for all Warrentville citizens by providing for their health, safety, and welfare.

IN WITNESS THEREOF, under my hand and seal of the City of Warrentville this 22nd day of February 2022.

David L. Brummel
Mayor
