Jack,

Per our conversation, we would like to not present at the meeting next week and instead present after the fully engineered drawings are complete and submitted. We are hoping to submit the additional drawings before the 4/30 deadline to be on the 6/5 meeting agenda.

Thank you,  
Ryan

Ryan,

You can access the [meeting calendar here](#). There is a little flexibility with the submission date as Staff has reviewed this project in the Pre-Application Meeting format. One additional item staff will require – a letter from you or the applicant stating that the City’s [performance standards](#) have been reviewed and that the proposed truck repair use will not violate them.

Let me know if you have any questions.

Best,
