

**FLIT FACE** Blocks are high quality integrally colored units with one or more faces split to expose the beauty of the natural aggregates. These units are manufactured with a built in water-repellent admixture to resist water penetration and reduce efflorescence.

- Exterior or Interior applications
- 6 distinctive colors (in stock for immediate delivery)
- Fire rated to 4 hours
- Virtually maintenance free
- Mold / moisture resistance - W.R. Grace Dry Block
- Durable concrete blocks
- Wide variety of sizes, shapes and textures
- Can be used in LEED™ rated buildings
