

**APPLICATION FORM D  
FOR PRELIMINARY/FINAL PLANNED UNIT DEVELOPMENT AND/OR  
AMENDMENT APPROVAL**

**Approval Criteria for Planned Unit Development**

In recommending approval or conditional approval of a General Site Plan for an SD District Development (including Development Control Regulations associated therewith) or a Preliminary or Final Plan for a Planned Unit Development (PUD), or a Major or Minor Amendment to previously approved PUD plans, the Plan Commission shall transmit to the City Council written findings of fact that the application meets all of the criteria below or will meet them when the Commission's conditions are complied with. The City Council shall, in granting approval or conditional approval, also find that all of the following criteria are met or will be met when the conditions to which the approval is made subject are complied with.

Please review and provide a written response indicating how the proposed Planned Unit Development will meet these criteria:

**1. SUPERIOR DESIGN**

The PUD represents a more creative approach to the unified planning of development and incorporates a higher standard of integrated design and amenity than could be achieved under otherwise applicable zoning district and subdivision regulations, and solely on this basis modifications to the use and design standards established by such regulations are warranted.

Applicant Response:

**2. MEETS PUD REQUIREMENTS**

The PUD meets the requirements for Planned Unit Developments set forth in Warrenville Zoning Ordinance, and no modifications to the use and design standards otherwise applicable are allowed other than those permitted herein.

Applicant Response:

**3. CONSISTENT WITH CITY PLAN**

The PUD is generally consistent with the objectives of the City Comprehensive Plan as viewed in light of any changed conditions since its adoption.

Applicant Response:

**4. PUBLIC WELFARE**

The PUD will not be detrimental to the public health, safety, morals, or general welfare.

Applicant Response:

### **5. COMPATIBLE WITH ENVIRONS**

Neither the PUD nor any portion thereof will be injurious to the use and enjoyment of other properties in its vicinity, seriously impair property values or environmental quality in the neighborhood, nor impede the orderly development of surrounding property.

Applicant Response:

### **6. NATURAL FEATURES**

The design of the PUD is as consistent as practical with the preservation of natural features of the site such as flood plains, wooded areas, steep slopes, natural drainage ways, or other areas of sensitive or valuable environmental character.

Applicant Response:

### **7. CIRCULATION**

Streets, sidewalks, pedestrian ways, bicycle paths, off-street parking, and off-street loading as appropriate to the planned land uses are provided. They are adequate in location, size, capacity, and design to ensure safe and efficient circulation of automobiles, trucks, bicycles, pedestrians, fire trucks, garbage trucks, and snow plows as appropriate without blocking traffic, creating unnecessary pedestrian-vehicular conflict, creating unnecessary through traffic within the PUD, or unduly interfering with the safety or capacity of adjacent streets

Applicant Response:

## **8. OPEN SPACES AND LANDSCAPING**

The quality and quantity of public and common open spaces and landscaping provided are consistent with the higher standards of design and amenity required of a PUD. The size, shape, and location of a substantial portion of total public and common open space provided in residential areas render it useable for recreation purposes.

Open space between all buildings is adequate to allow for light and air, access by fire fighting equipment, and for privacy where walls have windows, terraces, or adjacent patios. Open space along the perimeter of the development is sufficient to protect existing and permitted future uses of adjacent property from adverse effects from the development.

Applicant Response:

## **9. COVENANTS**

Where individual parcels are to be later sold, adequate provision has been made in the form of deed restrictions, homeowners or condominium associations, or the like for:

- a. The preservation and maintenance of any open spaces, thoroughfares, utilities, water retention or detention areas, and other common elements not to be dedicated to the City or another public body
- b. Such control of the use and exterior design of individual structures, if any, as is necessary for continuing conformance to the PUD Plan, such provision to be binding on all future ownership.

Applicant Response:

## **10. PUBLIC SERVICES**

The land uses, intensities, and phasing of the PUD are consistent with the anticipated ability of the City, the school districts, and other public bodies to provide and economically support police and fire protection, water supply, sewage disposal, schools, and other public facilities and services without placing undue burden on existing residents and businesses.

Applicant Response:

## **11. PHASING**

Each development phase of the PUD can, together with any phases that preceded it, exist as an independent unit that meets all of the foregoing criteria and all other applicable regulations herein even if no subsequent phase should ever be completed. The provision and improvement of public or common area improvements, open spaces, and amenities--or the provision of financial sureties guaranteeing their improvement--is phased generally proportionate to the phasing of the number of dwelling units or amount of non-residential floor area.

Applicant Response:

## 2. Meets PUD Requirements

The site is located within the Commercial Center Use Area of the Cantera PUD, where restaurants and drive-through operations are permitted. The proposed coffee shop aligns with the PUD's intended land use pattern and development character.

Proposed signage will deviate from PUD requirements, which only allow one sign per building. In addition, the PUD requires the sign to be back lit. Proposed signage will not be backlit. A variance to this requirement is requested. 7 Brew stores are pre-manufactured with consistent branding and signage. The standard signage package includes: 3 illuminated signs and 5 non-illuminated flat cut letters with a total area of 93 square feet (additional details below). The 7 Brew operational model is built around speed, efficiency and customer convenience. The drive-through-focused design of the 7 Brew building creates a 360-degree customer approach pattern, with signage to aid in wayfinding and guide drivers safely through the multi-lane system.

### North Elevation

Illuminated Medallion Sign – 28.27 sq. ft.

Non-Illuminated Flat Cut-Out Sign – 8.49 sq. ft.

### West Elevation

Illuminated Logo Copy Sign – 32.08 sq. ft.

Non-Illuminated Flat Cut-Out Sign – 8.49 sq. ft.

Non-Illuminated Flat Cut-Out Sign – 8.49 sq. ft.

### East Elevation

Illuminated Logo Copy Sign – 32.08 sq. ft.

Non-Illuminated Flat Cut-Out Sign – 8.49 sq. ft.

Non-Illuminated Flat Cut-Out Sign – 8.49 sq. ft.

### South Elevation

No Signs Proposed

Required Contents of Preliminary and/or Final PUD Application

		Preliminary PUD	Final PUD
1.	A typewritten list of all property owners to which Public Notice requirements for written notification apply.	X	
2.	The zoning district(s) of the property and all properties within 100 feet.	X	
3.	A current Plat of survey of the property certified by a registered land surveyor.	X	X
4.	Statement of reasons applicant believes action requested conforms to applicable Approval Criteria. ( <i>Application Form E</i> )	X	X
5.	<p>A Detailed Site Plan meeting the following requirements (<i>Table 2B of the Zoning Ordinance</i>):</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Numeric &amp; graphic scales, north arrow and date of preparation</li> <li><input type="checkbox"/> Boundaries of the development and each phase</li> <li><input type="checkbox"/> Adjacent property 200 feet deep surrounding site</li> <li><input type="checkbox"/> Lot lines and dimensions and areas of lots within site</li> <li><input type="checkbox"/> Easements and encroachments (location, dimensions, purpose) on and adjacent to site</li> <li><input type="checkbox"/> Data indicating for each development phase: <ul style="list-style-type: none"> <li>▪ number of dwelling units broken down by housing type &amp; number of bedrooms</li> <li>▪ number &amp; areas of lots</li> <li>▪ gross &amp; net site area</li> <li>▪ land area devoted to streets, off street parking, off-street loading, open space &amp; each housing and land use type</li> <li>▪ square footage of site coverage by: <ul style="list-style-type: none"> <li>➤ principal buildings</li> <li>➤ accessory buildings</li> </ul> </li> </ul> </li> <li><input type="checkbox"/> <b>Drainage</b>-Existing &amp; proposed drainage patterns</li> <li><input type="checkbox"/> <b>Existing Landscaping</b>-Existing wooded areas and isolated trees 6 inches or more in diameter at one foot above ground level</li> <li><input type="checkbox"/> <b>Structures</b>-Location, type, shape, dimensions, floor space, orientation, height in feet, finished grade elevations at all entrances &amp; corners, and number of stories of all existing and proposed structures, including buildings, signs, fences, walls, screening, bridges, culverts, exterior lighting fixtures, and entrance features.</li> <li><input type="checkbox"/> <b>Parking, Loading &amp; Service</b>-Location, shape, dimensions, capacities &amp; areas of off-street parking and loading spaces &amp; areas, outside storage, refuse disposal and services areas, including aisles, curbing, surface type, driveways, &amp; curb cuts and meet all requirements of Table 5F of the Zoning Ordinance.</li> </ul>	X	X

		Preliminary PUD	Final PUD
	<ul style="list-style-type: none"> <li>❑ <b>Topography-</b> <ul style="list-style-type: none"> <li>▪ Map showing existing contours at 2- ft intervals &amp; proposed grading &amp; contours</li> <li>▪ Map showing areas with slopes exceeding 10, 15, and 25 percent</li> </ul> </li> <li>❑ <b>Circulation-</b>Existing &amp; proposed number, location, alignment, dimensions, design &amp; construction standards of all public &amp; private thoroughfares, sidewalks, pedestrian &amp; bicycle paths, railroad right-of-way, curb cuts &amp; driveways, &amp; distance of site property lines to nearest exiting intersections, and names of streets</li> <li>❑ <b>Government Boundaries-</b>Current school district and municipal boundary lines on or adjacent to site</li> <li>❑ <b>Common or Public Areas-</b>The number, location, acreage, dimensions, proposed ownership, and provisions for maintenance of any proposed recreational or non-recreational common or public areas</li> <li>❑ <b>Water Bodies-</b>Dimensions &amp; locations of existing &amp; proposed natural &amp; artificial bodies of water, flood plains, marsh areas, drainage ditches, wet or dry storm water detention or retention areas, and any proposed modifications to existing water courses or water bodies</li> <li>❑ <b>Soil problem areas-</b>Based on site soil survey or report from Soil and Water Conservation District. Subsurface conditions-data on sub-surface soil, rock and ground water conditions.</li> <li>❑ <b>Utilities-</b>Dimensions, purpose, &amp; location of existing and proposed public and private utilities, utility easements, and drainage facilities on or within 100 feet of the property.
